REPORT OF THE BOTANICAL COMMITTEE.

To the President and Members of the Academy:

The Botanical Committee of the Academy respectfully reports that during the past year the collections made during the war by Dr. Hayden in South Carolina, and in 1869 in Western Nebraska by the same gentleman, have been named. Almost all of the species were already in the Academy, but many of

[Dec.

them were in other conditions than those which we already have, and have been added to the collection.

A collection from California, presented by Dr. Gibbons, has also been named, and added to the collection. Many of these we did not possess before.

The collection of Australian plants presented by Dr. Mueller a few years ago, besides scattering collections from Alaska and other parts, have been all gathered together in their respective natural orders. The cases containing the *general Herbarium* of the Academy are full, and numbered consecutively. No additions can be made until the whole is re-arranged. The collections above referred to are, therefore, for the present preserved separate, as a supplemental herbarium.

In the beginning of the year it was found that the plants in the magnificent Shortian Herbarium were being badly injured by insects. By authority of the Curators, Mr. Burk was engaged to poison them. He has since been steadily engaged on the work, which is about two-thirds completed.

All the plants in the collections before alluded to were poisoned before putting away by the labors of Mr. Burk.

THOMAS MEEHAN,
For Committee.

The Treasurer's report was read and referred to the Committee on Finance.

The Report of the Recorder of the Microscopical and Biological Section was received and referred to the Publication Committee.

The following is an extract from the same:

The great event in our history as an association, during the year which has just elapsed, was unquestionably the first Annual *Conversazione* held in the Hall of the College of Physicians, on the 12th of May, with a degree of success and satisfaction, not only to ourselves, as hosts, but also to our invited
